CarMD® Is A Handy Holiday Gift For Car And Truck Owners Award-Winning Tool Now Available For Both PC and Mac Systems

FOUNTAIN VALLEY, Calif. – (Aug. 25, 2009) – Car problems don't care if you've got an important holiday road trip planned or the repair shop is closed. Now, thanks to CarMD®, car and truck owners can keep their vehicles healthy without the hassle. CarMD is available direct to consumers at www.CarMD.com. Plus, beginning holiday 2009, this easy-to-use handheld device and software kit is available with a dual-platform Mac/PC version. The price: under \$100.

"CarMD makes a practical and thoughtful gift to empower drivers everywhere to keep their vehicle healthy, whether they drive a car, truck, SUV or minivan," says Richard Amador, director of marketing for CarMD.com Corp. "And now, just in time for the holidays, the full benefits of the product are available whether you're a PC or a Mac user."

The CarMD handheld device, which fits easily inside a purse or glove compartment, works on all 1996 and newer cars, trucks, SUVs and minivans manufactured for use in North America – foreign and domestic. This easy-to-use tester can be used to quick check an unlimited number of vehicles. Within seconds, its color-coded (green, yellow, red) Vehicle Health Monitor™ LEDs tell the driver if the vehicle's systems are running normally, which is beneficial when inspecting a used car, preparing for a road trip or prior to an emissions "smog" check.

CarMD customers also gain free access to a database with tens of thousands of real-life fixes from ASE Certified technicians. When that pesky "Check Engine" light appears, or even before it comes on, tool owners can use the included software and USB cable plus a personal Internet connection to unlock hidden information stored in the vehicle's computer and generate a personal diagnostic report. This printable/email-able report includes probable cause, most likely fix and estimated do-it-yourself and do-it-for-me repair costs, with parts and labor by region. The CarMD tester, software and website have also been designed for ease of use, and feature lifetime free software and firmware updates. In addition to working with Microsoft Windows® 2000, XP and Vista systems, CarMD will now work with most Apple® systems.

About CarMD.com Corp.

The mission of Fountain Valley, Calif.-based CarMD.com Corp., is to empower consumers by providing the tools and information needed to make better-educated decisions about their vehicle's health and maintenance. Distributed by CarMD.com Corp., CarMD costs \$98.99 and is available in the U.S. direct to consumers via two convenient options: 1) toll-free phone: 888.MyCarMD (888.692.2763), or 2) online at www.CarMD.com. The product is supported Monday – Saturday from 6 a.m. to 6 p.m (PST) by ASE Certified Technicians based in the U.S.A.
